

Traditional Herbalist Level 2b Schedule

All of the Traditional Herbalist Level 2b courses were formerly offered by George Brown College. However, due to program changes at George Brown, some of these courses are no longer offered. In order to address this and to accommodate the individual needs of students, we have indicated alternative distance learning courses that are available from different colleges through Ontario Learn. Students may also explore courses offered by colleges in their area. Any courses that are equivalent to any of the Level 2b courses in content and depth may be substituted. It is necessary to provide information on alternative courses to the school. Acceptance of any courses as equivalents to courses in the Level 2b program requires the approval of the program director.

For scheduling options and additional course information, please see the George Brown course calendar or the *Continuing Education* section of their website at www.gbrownc.on.ca. For distance learning alternatives please see the Ontario Learn website at www.ontariolearn.com.

PATH 1018 Pathology and Therapeutics I

Prerequisite or corequisite: Anatomy and Physiology II.

This course is not currently offered by George Brown College as part of their Continuing Education program. The following alternative is therefore recommended:
